

Brock's Performance Products • 4064 East Patterson Road • Dayton, OH 45430 • Phone: 937-912-0054 • Fax: 937-912-0062

*Brock's Performance does NOT warrant burned plastic Make sure you have 1/8-1/4 of clearance from plastic to pipe.*

- For plastic that is painted we recommend using blue painters tape to outline the area you are cutting so the paint does not chip up when cutting with coping saw.
- We recommend the use of a Dremel tool to clean cut after use of Coping Saw
- Also, make small cuts and check plastic frequently to make sure there will not be huge gaps between the pipe and the bodywork. Remember 1/8-1/4 inch gap.

Brock's Performance Products are designed for Closed-Course Racetrack use **ONLY!**
